

Dear Parent,

06.06.2020

Hope this will find you safe and in good health. Our prayers and best wishes for all.

This is to reassure you that Bhavan's School stands firm by all our students and parents at this time of disruption and serious adversity caused by the massive Covid Pandemic, the consequent lock-down and the associated restrictions.

It is the paramount concern of all of us in Bhavan that even as we face such serious challenges in this unprecedented situation, we ensure the best education possible to our students with continuity until the schools reopen and regular campus classes commence sooner, hopefully, as we look for. Towards this, we have started virtual classes in online platform for students of Standards X & XII from April 2020 and for all those in other Standards, from 1st June 2020 onwards. We have incorporated the best practices in systems and methodology in our online classes. All our teachers have been trained well and adequately to handle such online classes in all subjects, with the needed effectiveness and coverage, almost close to those of class-room sessions. The feed-back on them being received from a large section of parents on its quality and usefulness and also appreciating the sincerity and good work of our teachers, give us immense satisfaction. We shall constantly endeavour to improve and upgrade, in the coming weeks.

We are sure we can rely on parents for their utmost support and assistance in our efforts in the new experiment for both the students and the teachers as well. It is appreciable that our students have mostly adopted and settled down to the new learning process in the virtual mode.

Bhavan is equally concerned about the well-being of parents in all respects. Your cooperation and goodwill all these years have helped us to reach the scale and heights we have now achieved in education.

We are aware of the financial stress being felt by a few parents on account of the lock-down, temporary though. To benefit all, we have already withdrawn the increase in fees this year as decided earlier. Further, to provide relief to those experiencing financial constraints, we shall this year, allow extension of time or easy instalment facilities for payment of the fees.

Also, to address the needs of those special cases in extreme financial difficulties, we shall grant concessions in fees as possible, in consultation with the Management. You may write to me in this regard in due time.

We commit wholeheartedly to maintain and foster strong continuing bond of warm relationship with all parents in Bhavan's family, as we take good care of the physical, intellectual and emotional growth of our students - your children -, which would enable them to develop and emerge as successful leaders in their respective fields.

We thank you for your understanding and support.

PRINCIPAL
